

Instrumentation. Data.
Live Streaming. Mobile. Cloud.
Welcome to Winning.

See More. Win More.

The D3 app provides complete instrumentation for the driver, gathers all sensor information wirelessly from the CL1 data box AND uploads real time data to your secure Racepak cloud account, utilizing the phone's cellular capabilities.

Data Redefined

The D3 app utilizes the familiar touch, swipe and pinch functions of mobile devices, providing the most advanced, yet user friendly data analysis experience available. In addition, on track data can be viewed live, anytime, anywhere there a cellular connection is available.
